CRESCENT MOON & STARS - CRESCENT LIMITED LOCOMOTIVES

Copyright© Donnie Dixon  
03/2010

The Crescent Moon & Stars Monogram was used ONLY on the Locomotives (PS-4) that powered the Southern Crescent Limited Train from the 1920s until the middle 1930s. This monogram was placed in a rectangle just forward of the cab windows on both sides and on the steam cylinder cover on both sides. Some locomotives had headlight number plates with the Crescent Moon below the numbers. The above drawing is not to any railroad scale but can be sized up or down to any scale as long as dimensions are maintained. I will include this drawing in my DECAL Artwork to scale. Gold Leaf was used for this monogram.
