The above graphics are Southern Railway Freight Steam Locomotive number plate figures for location under the headlight on the front of the smokebox. Number plates were often cast brass or bronze with raised lettering. Most often these numbers were approximately 4.25 inches tall and the number plates were about 7.75" X 17". The normal color was gold on a red background, but green and black backgrounds could be seen as well. These graphics are not to railroad scale, but can be resized to any scale as long as dimensions are maintained. I will provide DECAL Artwork for scale N, HO, S & O.
